Subject: Thank You for your TIA Participation

Dear Paul,

On behalf of the industry, TIA would like to thank you for your past participation and previous service on TIA's Engineering Committees.

As a consequence of your discontinued participation, you are no longer eligible to vote at the committee or on ballots and have been removed from committee e-mail distribution lists. The criterion for eligibility is noted in Section 3.7.3 in the [Procedures for American National Standards](#).

It is worth noting that you may still follow the progress of TIA's Standards Development through our website and ANSI Standards Action Reports.

In the future, TIA would welcome your return. If you wish to rejoin TIA as a member or participant, or if TIA can assist you in your efforts to facilitate your participation, please fill out the [online application](#) or contact us directly. Because of your past experience, it will be an easy exercise to restore your access and voting rights.

If you believe you received this message in error, please contact the TIA Standards Secretariat at standards@tiaonline.org

Thank you again and best regards,

Your TIA Standards Team
