Stakeholders Invited to Contact TIA Regarding Participation.

The Telecommunications Industry Association (TIA) TR-42.7 Engineering Committee on Telecommunications Copper Cabling Systems (568) has issued a call for interest for document ANSI/TIA-568.5 initially titled "Single balanced twisted-pair cabling and components standard". TR-42.7 is developing guidelines in the area defined by the following scope: "A single balanced twisted-pair cabling and components standard to provide specifications for cables, connectors, cords, links and channels using 1-pair connectivity in non-industrial premises telecommunications networks. The standard will focus on MICE1 environments and will include cabling and component performance requirements and test procedures, reliability requirements and test procedures, as well as guidelines for adaptations to four pair cabling."

The stakeholders may include, but are not limited to: All users and manufacturers of telecommunications cabling systems.

TIA is actively seeking participation in these projects from the user and general interest communities.

Reach out for more information about TR-42 and how to participate in standards development with TIA.

A major function of the Telecommunications Industry Association (TIA) is the writing and maintenance of voluntary industry standards and specifications. These activities are carried out by the volunteer members of TIA engineering committees. On th

meetings, as well as links to some of the most popular standards from each committee. TIA is accredited by the American National Standards Institute (ANSI). Visit tiaonline.org.

About TIA

The Telecommunications Industry Association (TIA) represents manufacturers and suppliers of global communications networks through standards development, policy and advocacy, business opportunities, market intelligence, and events and networking. TIA enhances the business environment for broadband, mobile wireless, information technology, networks, cable, satellite and unified communications. Members' products and services empower communications in every industry and market, including healthcare, education, security, public safety, transportation, government, the military, the environment, and entertainment. Visit tiaonline.org for more details.

TIA is accredited by the American National Standards Institute (ANSI), and is a proud sponsor of ANSI's Standards Boost Business campaign. Visit www.standardsboostbusiness.org for details.
