TIA's TR-42.12 Engineering Committee has initiated a new project and ballot to reaffirm the ANSI/TIA-455-160-B standard, titled "IEC-60793-1-50 Optical Fibers - Part 1-50: Measurement Methods and Test Procedures - Damp Heat (Steady State)." By reaffirming this standard, the Engineering Committee is underlining their commitment to continuously improving the performance and durability of optical fibers. Read Announcement: <https://bit.ly/3u4pV1d>
