Hi Tom,
I look forward to working with you and your staff on your upcoming special audit.
Jay is correct - you do not need to provide anything further for items 29-32 if nothing has changed.
Regards,
Shazia

Hi Tom,

Thanks for letting me know.

TIA should contact Shazia when you are ready and provide it similarly like last time the way you organized it.

Please touch base with her when you are ready.

I will give her a heads-up now.

Please provide a set in both strikethrough and clean for the special audit.

If 29-32 are the same you can just note that for Shazia.

Please let me know if you have any further questions.

Shazia, please let Tom know if you need anything differently, etc.

Thanks!

Best,

Jay

Thank you, Jim. I appreciate the effort.

Jay, we will be ready for a special audit very soon. We will likely provide formal notification next week.

I have two questions, at least for now. Do you want a version of these two documents w/o tracked changes, i.e., a clean version, in the Folder 1 for the special audit? Do you want us to populate the Miscellaneous Folders 29-32. If so, we will likely be populating it with the same documents we provided for the initial audit. We're happy to do that, but wanted to verify.

Thanks for all the help folks.

Have a great day,
Tom

Tom McGarry
Vice President, Standards
Telecommunications Industry Association
1320 North Courthouse Road, Suite 200
Arlington, VA 22201-2598

Dear Tom:

On behalf of the Executive Standards Council (ExSC), I am pleased to inform you that the reaccreditation of the **Telecommunications Industry Association** under its recently revised operating procedures for documenting consensus on TIA-sponsored *American National Standards* has been approved effective **January 10, 2024**. This reaccreditation action relates to the revised version of TIA's procedures originally forwarded to ANSI on October 25, 2023, and is conditional upon final closure of TIA's recent audit. Please forward to me a finalized, clean version of the procedural documentation for maintenance in TIA's accreditation file at ANSI.

Please be advised that this decision may be appealed in accordance with section 19, *ExSC Hearing of Appeals*, of the [Operating Procedures of the Executive Standards Council](#). The ExSC and its Audit Subcommittee reserve the right to request additional changes to TIA's accredited procedures as a result of any new procedural requirements issued with future versions of the *ANSI Essential Requirements*, if any instances of non-compliance missed during the current review are later identified during TIA's next audit, or if the ExSC or its designee identifies any procedural provisions that are not being implemented in the spirit of the *ANSI Essential Requirements*.

If you have any questions or I can be of further assistance, please do not hesitate to contact me at (212) 642-4913, or via E-mail at jthompso@ansi.org. Thank you.

Sincerely,

Jim Thompson
